

Sliding buoy type automatic level controller

EN ASME/MNPT

This device guarantees automatic, safe and reliable control, regulation and signalling of the level of liquids in; wells, tanks, cisterns, etc.

In accordance with the requirements of the pressure equipment directive 2014/68/EU.

EC controller verification certified by: TÜV Internacional Grupo TÜV Rheinland, S.L. EC 0035.

Type (Module D) EC examination report nº DP B EPR 0535132968 certified by: TÜV Internacional Grupo TÜV Rheinland, S.L.

Specifications

- Materials carefully selected for their resistance to wear and tear, temperature and corrosion.
- Simplicity of construction ensuring minimum maintenance.
- The area of connectors, terminals, magnetic switches, etc., housed in a box made of isolating temperature resistant material which prevents the entry of dust or dirt, etc. IP-65 protection.
- The components of the magnetic switch are rigorously selected to guarantee long life and total operating safety.
- Silver alloy breakers.
- Easy to connect.
- Adjustment of operating points using end stops.
- All of the equipment and the switches have been thoroughly tried and tested.
- Each of the components is numbered, registered and checked. If prior request is made a certificates of materials, batch and will be supplied.

IMPORTANT

If this equipment is connected to vessels with turbulent fluids they must be supplied with the corresponding breakwater.

Depending on demand:

- Possibility of manufacture in other types of material, for use in special working conditions (high temperatures, fluids, etc.).
- Other connections and fluctuation length.
- Stainless steel buoy (EN-1.4401) with coating of Epoxy, PTFE (Teflón), Chemical nickel, etc.
- Other sizes of buoy.

Magnetic switch

Model 262

Specifications

Electrical characteristics: — Voltage: 220 V.A.C.
 — Current: 1 A.

Magnetic characteristics: — Material: ALNICO - 1500.
 — Residual induction (Br): 8500 / 8600 G.
 — Coercive force (Hc): 1400 / 1500 Oe.
 — Energy index (B-H) maximum: 4,2.
